

Group Matching Target tasked by Daz Smith - GM3DS4

Remote viewed by Anita Ikonen - Method EEC

Target 1421-7777

Today April 25, 2018

Start 6:36 PM

Third Stage 2. Target four. 1421-7777

April 25, 2018. 6:36 PM Start.

Oh! This one has got something slippery, haha! Something fluid and blue that slides around like water! We are in a water, a pool of water of some sort. But there is a vessel here. The water is described by 1421, especially by the 4, and 7777 has some sort of serious vessel which feels serious. The vessel in 7777 is very serious and is not a light joke.

Yes, a vessel is on the center right side of my image, and it is of a gray color. The vessel has got round porthole windows on it. It is a super serious vessel, it is very serious. A masculine energy about it. It is nothing at all to do with jokes of any kind. A captain is on it.

The vessel is fortified. They do not want anybody else coming onto it. Let me go there onto it anyway. Oh, it is a very serious military kind of place, no fun there at all, absolutely no fun. But it is a stationary vessel, it doesn't move to anywhere. It has got cannons, and bombs. It feels like a fortress. It has a railing on the deck. They are guarding this place, from intruders. They are watching even at night, they are here on the vessel and they are watching out toward the water for intruders. It is VERY SERIOUS!

I feel the moving on the waves of the water, that rocking on the waves. They are watching into the water, and they are being very serious! Yes, the vessel or ship on the water. And it has got those round windows on it that are along the hull of the boat.

Look inside one of the round windows: I see engineering and electronics inside, and people being very busy and active working on it, calculating things and being active.

Look again in through a window: They don't want anybody to come in here looking around. It smells strange there. They are protecting it, guarding it. There are white staircases somewhere, wide flat staircases made out stone.

There is a white short pole with a ball on the top end of it. This place is heavily guarded, they wish to keep people out. A man, the Captain, with white clothes.

7:04 PM End.

1421-7777
