The ground is very significant, we are on the ground. There is a small wedge-shaped incline downward which seems covered with grass. There is the sensation of heavy heavy material on the ground which cannot be lifted up because it is so heavy, this seems like rock. The red colored elements and the yellow are composed out of electrical sparks and disintegrate when probed, so it could be just a representation of how things were shown, and not actual items or materials.

Water - no

Plants - yes grass on the ground

Human/animal - no

Vehicle electronics - no

House building - no

Feedback

Water - no

Plants - no but illustration of them (I will count as yes, same as I do with illustrations of humans)

Human, animal - no

Vehicle, electronics - no

House building - yes

Points

Plus 4

Minus 1

Total 4-1 = 3

Individual correlation grade B
