Solid black structures, black gravel and stones. An arch shape on the black structure. A taller black structure with a blunt top and diagonal bars from the top. A human is nearby, seen standing at the wall to the right, or looking in toward the area from the near background, and also a human is sitting on a board or bench. The person to the right looked like an Asian with black hair and white skin and is smiling with mouth open. There is a flat floor above us, instead of open sky. Water and plantlife not detected.

Feedback: When I had probed the human who is sitting on the bench, I had seen that it was a girl with long blonde hair, straight hair. The target image has a woman with long red curly hair.
