Tall slender structure is the main element, it appears to be a tree. It is mostly empty of other elements around it. A curved fence made out of vertically placed light-brown wooden planks wraps around part of it behind it. A fluffy solid cloud-like element is on the floor next to it, this element is white and has several red dots on it. Larger red flat buttons or coin-shaped elements were seen on the ground next to the tree on the other side. Two elements like yellow bananas hang down from the tree suspended by thin wires. Many electrically conducting wires are reaching outward from the tree into all directions around the treetop, these wires are not rigid straight but have a natural falling curve like a belly downward.

Target: A blue and white sign.

Decoy1: Skiers.

Decoy2: Useless image a small illustration, I will generate another decoy, or no... this is so similar to the yellow bananas hanging from a wire, I keep it.
