Solid dark walls, wooden beams above instead of open sky, the floor is not detectable. Main element shape is the row of round pieces, first as the green ones and then the white ones on a solid gray structure which emanated from the wall on the right. The blue rounded shape is also there. Green light-weight airy shapes reach toward the upper left. This is all I got. The target or the target signal was difficult to work with.

Target: House with bricks wall and snow outside.

Decoy1: Logotype illustration.

Decoy2: Moth insect.
