Start 3:33 PM

3:49 PM End RV

Purely a manmade structure, no elements of nature were encountered. Main element is a tall structure on the right side, it sits against the floor and is tall. The coloration here is blue-gray colors. There are two open flaps or doors at the front of the structure, which reminds me of a man's coat. On top of the structure is that gray ball. Troughs run here at elevation above, but also the three-sided trough structure against the floor.

Target: A beautiful pond or lake. I did have water flowing down a trough, but where did the target signal give me all of that steel structure? Perhaps the gray ball on the top is similar to the bent image of the water (fisheye lens used for camera?).

Decoy 1: A very small image, I will not use this as a decoy.

Decoy 2: A black and white image, not the best for RV.

Decoy 3: Black and white image of a musical band.

3:55 PM End session.
