10:21 PM End RV

The target will not show me any more than this. The main elements are like cages made out of bars, the smaller one on the left has an open top and the larger one on the right has a pointy top with a vertical bar or line continuing up above it. The floor is gray, and there is a small solid wall or structure behind the smaller cage on the left. There is darkgreen as if plantlife above as well as to the right. No human or animal or water detected. It was at one time as if a human with fingers was tampering at the back of the smaller cage on the left as if to open the cage door open. From the left side cage, two bars go along the floor in the horizontal plane, here drawn at an angle only because of perspective, but these two lines are flat and horizontal.

10:25 PM End session.
