Internet Search Images C1 Target 10

Today April 16, 2019

Start 5:49 PM

One search word, I am blind to the word during the session.

I saw a lower case "b" in the automatic drop down menu when I had inserted the blind search word and placed this text box over the screen. I will retrieve a new search word without looking at the previous search word. Done.

Pink color and much of it. Two layers of pink, one larger below and a smaller one above it like two shelves but irregular shaped.

Probe: Soft, gelatinous, gentle. There is red color on one side of it.

5:56 PM End RV.

Word was: "watering can"

I give this one a B because the two darker pink shelves of different size are there, and the two red colors on the sides are there (seeming like dislocation, i.e. the same element seen as separate elements but turning out to be the same). Odd how this one came across as pink and wobbly shaped. Such a strange session, a strange experience.
