Jersey Oven Apron Music Player Lips

Blue color bulging outward in the center. Feels sturdy material. T-shaped with spreading on both sides on top, sturdy material.

Hard to probe this one, could be clothes on a person.

4:39 PM End RV.

I give this session an A. It is clothing, over a sturdy thing. The two extensions to the sides are here two extensions upward (probably a loop that ties around the back of the neck but that is not visible from a photo, probing may have established that). What I especially remember from the impressions was how this blue continued down down down like a block shape, I did not write that in my report but I can say it now, and based on that especially I have strong confidence that I made a connection to this target. The blue color is also true. The bulge in the center might possibly even be the blue emblem in the top left corner, but then it is the case of element pieces being scattered around, which is what initial elements and initial impressions usually do.

Grade is A.

"Music player" meant as one word.

4:44 PM End session.
