Internet Search Images B6 Target 8

Today April 15, 2019

Start 1:39 PM

Six search words from random word generator, I know the words from start of session.

Green Gram Drum Stick Stairs Mobile Music Player Nose

Red element high above, it is shaped like a dish, the outer walls make a circular round perimeter all around, it is open top and like a dish or a bowl that something could be put into. It is a manmade object. Underneath it are purple sparkles like the crackle embers that form after fireworks these also made the crackling noise.

The bottom of the dish is bulging downward and has an irregular shape like a fabric pouch there.

The dish is high up and from its left side extends a strip arm away from it like the handle of a frying pan almost except flat.

1:49 PM Secondary stage.

Under the pouch: It is perfectly still and not moving. Something has been dropped into the pouch. I touch the rim and find the purple crackling underneath. We are high up with the red element. It has that pouch throat like a pelican. There are little yellow pieces like candies in the pouch.

Amount of probing is now about the same as for previous sessions so I need to stop.

1:56 PM End RV.

This session is a perfect A. From the target image we could not have expected much more. To say that it is electronics can come in the initial stage from initial impressions, or it might have needed more probing. I knew I had a manmade object, the round ring rim perimeter is there and the rectangular handle element as well. The crackles could have been detected from electronics. The yellow piece is also found and looks like the yellow number zero on the display, the number nine might look like another yellow candy. When I drew them I drew two but made them three just for good measure just to show "a bunch of them" but I could have also stopped at two (but didn't).

Beautiful drawing, beautiful report, for this target image I am very happy with the correlation. Grade is A.

"Green Gram", "Mobile", "Drum Stick", "Music Player", "Stairs", "Nose" to show what words were

composite words.
