

TARGET CHECKLIST Version 1

Protocol or target pool: Wikimedia Judge Matching

Target Number: 6

Today June 2, 2019

Time when making checklist 10:12 PM

CHECKLIST

Main element(s) of emphasis/importance:

1. A vehicle of transportation or a vehicle of motion which is high up in the air.
2. Humans transported on the vehicle of motion.
3. Steep high mountain tops and mountain ranges with a deep valley in between down below, rocks are rolling down the steep hill slopes.
4. An upside down U-shape which is a black surface and is like a cave entrance in the mountain.
5. Gold metal cap or rooftop dome in the mountains on the left side, people travel around counterclockwise (if seen from above to down) underneath it.
6. A chair on which a human can sit and travel around and around and also along a roller coaster up and down path fast.

Lifeform a) human, b) animal: HUMAN OR HUMANS

Describe: The human or humans, one, two or three humans, is or are traveling on the vehicle of motion high up in the sky. I have not probed for the appearance or clothing or other features of the human or humans.

Plantlife: NONE

Larger trees or smaller plantlife:

Describe:

Significant water: NONE

Describe:

Sun or lamp: NONE

Describe shape, size, altitude, placement, significance:

Motion: YES!!!

Describe: There is a vehicle which is a manmade structure and is high up in the sky above a mountain region. It is red in color and has two long U-shaped wings, meaning with blunt rounded outer edges and not sharp edges, on the tops of those U-shaped wings is a white patch each, that patch is not square in shape but is more like a round flat colored patch. The underside of a wing showed three wooden poles that have four equal square sides, it looked like a support for a kite, also the underside of the vehicle is not that same red with a white spot as is on the top surface of the wing but was like a brown or dark green color there instead. There is some sort of fluid within the vehicle could be a fuel but not sure, I did not probe it closer. The vehicle is a flying vehicle, it does not travel on water and not on the ground, it travels high up in the sky. It could be an airplane or a helicopter or a kite or a paraglider sail. One, two or three human or humans are traveling on it and there is a chair to sit on. One time I saw a human hoisting itself downward from the vehicle while holding on a rope, and one time a human was standing in an X on top of a wing in a kind of celebration of show off pose. This flying vehicle goes around and around in the same space really fast and this is counter clockwise if we look down from it from above. The traveling chair with the human on it also travels like on a roller coaster path with ups and downs and really fast.

Activity/Behavior: YES

Describe: Human sitting on the red and white striped chair and traveling around in circles or also ups and downs forward really fast.

Large building or construction: NO

Describe:

Significant small items and how many: YES

Describe each:

1. The red and white striped folding chair that a person is sitting on as the person travels around in circles or ups and downs on like a roller coaster trajectory.

Vehicles (eg. boat, airplane, bicycle, train): YES

Describe: As described above, the red and white airplane, helicopter, kite, paraglider, or theme park ride that people can travel on while sitting on a red and white striped folding chair and this is high up in the air above a mountain region.

Describe floor/ground: Not seen and not sought after.

Indoors or outdoors or both: Outdoors.

Main elevation(s) emphasized a) below ground, b) ground, c) above ground, d) high up in sky: High up in the sky.

Primarily a) nature/natural, b) manmade, c) artificial: We are in nature at the mountains, but the vehicle itself is manmade, so we have both nature and manmade.

Describe the overall target site area: Very tall huge mountains brown color with pointy tops, one mountain ridge on the left, another mountain ridge on the right side, and a deep canyon in the middle. This is a huge scenery.

Describe surroundings outside of target site: Not probed for.

Probable location on world map: Not probed for.

Emotions, ambience, feeling: Pleasant excitement in the tummy on the traveling passenger on the chair.

Significance and meaning of target: We have a vehicle of transportation that is high up in the air and a human is traveling on it. We are high up above the mountains.

What I think the target is,

- 1) A vehicle of transportation as described, such as an airplane, helicopter, kite, paraglider.
- 2) A carnival ride such as carousel that goes around and around with those chairs we sit on that have strings and lean outward as the ride spins, and the roller coaster.
- 3) Mainly mountain region but the vehicle should be there.

Summary or additional explanations: Look for the vehicle of transportation which is high up in the air and in which one, two, or three humans are traveling. It should have a chair in it that a person can sit on while they travel forward in the air. The travel should be both rotating fast counter clockwise and also have a forward type of trajectory but with short fast ups and downs like on a roller coaster. The vehicle itself red and white.

Look for red and white colored manmade object, either red body with a white roundish patch, or the red and white striped folding chair or other manmade object with that coloration and pattern. Look for a chair! Look for high up above ground, and a huge mountain chain brown in color where some rocks might be likely to slide down the mountain slope. You might also locate the gold metal cap or rooftop dome somewhere.

Significantly no water and no plants were detected, and no houses, no streets.

Look for a lot of motion as described!

10:29 PM End checklist notes.
